Jaipur, Rajasthan

OBJECTIVE

Results-driven Software Engineer with 3+ years of experience in building scalable fintech, crypto, and AI-powered applications. Skilled in React, React Native, and API integrations, focused on delivering high-performance, user-centric digital solutions.

EDUCATION

- **Jaipur Engineering College and Research Center** Jaipur, Rajasthan
Bachelor of Technology in Computer Science and Engineering; CGPA: 7.55 (71.73%) Aug 2019 – June 2023

EXPERIENCE

- **Startup Labs Infotech Pvt. Ltd.** Jaipur, Rajasthan
Software Development Engineer I Nov 2024 - Present
 - Developing and maintaining a fintech platform across mobile application and web admin panel, handling backend API development, third-party integrations, and complete app-web API integration.
 - Implemented mutual fund investment features including portfolio tracking, goal-based investing, and integrated the Loan-Against-Mutual-Funds (LAMF) SDK to enable seamless liquidity access against user holdings.
 - Integrated third-party services including CleverTap (user engagement automation), AppsFlyer (attribution tracking), Microsoft Clarity (user behavior analytics), and Firebase Cloud Messaging for notifications.
 - Managed OTA updates (CodePush) to streamline deployments and reduce app store release dependency.
 - Developed a social media creator commerce application, designing UI and handling API integrations for product linking, affiliate commissions, and content monetization.
 - Built cross-platform mobile applications for AI-driven academic tools and creator commerce solutions.
 - Designed and implemented majority of mobile UI flows ensuring smooth performance across Android and iOS platforms.
 - Created regex-based modules to support LLM training and document parsing workflows.
 - Contributed to React.js and Next.js web development with backend integration and UI enhancements.
- **Flitpay Pvt. Ltd.** Jaipur, Rajasthan
Software Development Engineer I Jan 2023 - Nov 2024
 - Built and maintained end-to-end mobile applications with features such as AI matchmaking, real-time chat, analytics, and cryptocurrency trading.
 - Designed approximately 90% of UI/UX for Android and iOS platforms, focusing on responsive and user-centric design.
 - Integrated about 70% of APIs using both RESTful and GraphQL technologies, and developed around 60% of the core application logic.
 - Implemented social authentication, Firebase Cloud Messaging, and push notifications to enable real-time communication and engagement.
 - Managed third-party service integrations while optimizing app performance, ensuring strong security, and enhancing overall user experience.
- **Wait 4 Tech Services Pvt. Ltd.** Jaipur, Rajasthan
Front End Developer Intern June 2022 - Dec 2022
 - Developed user interfaces using HTML, CSS, and JavaScript to enhance usability and functionality.
 - Implemented responsive designs ensuring seamless experience across devices.
 - Improved UI elements and introduced new features to boost user engagement and experience.

SKILLS

- **Languages:** HTML5, CSS3, SCSS, JavaScript, TypeScript, SQL, PostgreSQL, Python (basic)
- **Frameworks & Libraries:** ReactJS, React Native, Next.js, Redux, React Query (TanStack Query), RxJS, Tailwind CSS, Bootstrap, Angular, Apollo Client (GraphQL)
- **Backend & APIs:** REST API, GraphQL, Node.js, Express.js, NestJS
- **Mobile & Growth Tools:** OTA Updates (CodePush, Revopush), Firebase (FCM, App Distribution, Remote Config), CleverTap, AppsFlyer, Microsoft Clarity, Stripe, Push Notifications, In-App Purchases
- **Testing Tools:** Jest, React Testing Library
- **Developer Tools & Platforms:** VS Code, Android Studio, Xcode, Git, GitHub, Bitbucket, Jira, Postman, Firebase, Flipper, Sentry, Figma, pgAdmin, AWS

PROJECTS

- **MutualFundWala:** Developed a mobile app that simplifies mutual fund investments with features like goal-based investing, portfolio tracking, automated investment planning, real-time market insights, and loan-against-mutual-funds (LAMF) support. The app provides an intuitive experience for both beginner and experienced investors, helping users efficiently manage investments and access liquidity against their holdings. **Android — iOS**
- **MintLink:** MintLink is a creator-driven commerce platform that enables content creators to monetize their influence by tagging products in social media posts and earning commissions from sales. It seamlessly bridges e-commerce and social media, allowing creators to build personalized shopping experiences for their audiences while enabling users to shop directly through curated product links. **Android — iOS**
- **Formatr:** Developed an AI-powered platform to automate academic formatting and citation management, streamlining the process for students and researchers. The platform provides journal-ready formatting, citation tracking, and document organization, significantly reducing manual work. Contributed to both web and mobile versions to offer a seamless user experience across devices. **Android — iOS**
- **Flitpay: Crypto Trading App:** Developed the mobile application for Flitpay, a cryptocurrency exchange platform offering easy and secure trading of Bitcoin and over 350 cryptocurrencies. The app provides features like instant buy/sell, crypto earning, and referral rewards, ensuring a seamless trading experience for users. Focused on optimizing performance, security, and user engagement on both Android and iOS platforms. **Android — iOS**
- **Connect by FinkUP:** Developed an event platform that enables seamless attendee networking and sponsor interaction with features like AI-powered matchmaking, ticketing, and live analytics. Integrated a chat feature for real-time conversations, promoting engagement and collaboration. The platform connects sponsors to potential leads, enhancing brand visibility and event success. **Android**
- **Scratch Mobile App:** Developed a mobile app inspired by Scratch, enabling users to perform drag-and-drop actions to create interactive projects, animations, and games. The app allows users to customize sprites, control animations, and explore creative possibilities without writing code, offering an intuitive and engaging platform for creativity.
- **Crypto Buzz:** Developed a web app providing real-time cryptocurrency updates, news, and price tracking. The app helps users stay informed on market trends with live data and insights, offering a seamless, user-friendly experience.

ACHIEVEMENT

- Qualified for the 2nd Round, Smart India Hackathon 2022.

HOBBIES

- Photography, Badminton, Chess
